The City of St. Louis thus fails in its effort to terninate the trust established by the will, and turn the estate to general

charitable use. Mullanphy died in 1850, and the fund, which has lately amounted to nore than \$1,000,000 in realty values, accrued from a foundation which he established for emigrant relief at a time when this was a pressing need. In recent years the city has tried to divert the fund to more general uses, and a Circuit Court decision approved such action, but the Supreme Court now letermines that this cannot be done. The Court, in its decision, held hat the city had failed to show that the purpose for which the trust was stablished had ceased to exist. Hence, the Court could not approve the dissolution of the trust. The city's case was dismissed without prejudice, and the city can bring of Woodlock's advances, she said, the proceeding in a new form, at

An Old Man Shook His Head

His hair didn't shake because he didn't have any. His teeth didn't grit because he was toothless.

THIS OLD MAN had a tongue, though, just as good and limber as it] ever had been. Some folks thought that by and by it would wear to a frazzle—but it didn't frazzle.

QUOTH THE old man, as his hairless head he shook: "Bad doings, this." 'Monstrous evil happening, this.' His enunciation was good as he spattered the sidewalk.

HE WAS KNOWN as a jagged edge rasp that could with one filing take the cockle-burs out of the head of any newcomer.

HE COULD NOT, as hard as he tried, discover any cockle-burs in Piggly Wiggly. Piggly Wiggly was a newcomer that had hit town. "That is a devil of a thing-monstrous evil." "My son John and my other son David and my sons Daniel, Timothy, Nathaniel, Socrates, Xerxes, Hannibal, Cicero and Alexander are all going to get ruined by this new hydrophobia concection that comes to our town to make everybody quit work and get their jobs away from them."

THIS JOB getting-job-losing talk had been spewed into existence by this Doughty-Warrior-Lounger while he sat among his pals in an old-fashioned grocery store. There are no loafing spots for the "town gossip" or the 'ne'er-do-well' in a Piggly Wiggly store.

THE WEASEL-MINDED, gimlet-eyed tobacco spitter really believes all that he preaches. He has been on deck so long, his head has been bald so long, his teeth have been lost so long, and his amber-flow is so long, that groups of men and women stand around him, throwing their hats into the air, saying, "Glory be to this huge prophet that sees the devil and his witchcraft whether he be in a can of salmon or in a peck of

LOOKING BACK at a little history you will see that not long ago men and women were burned because they were believed to be possessed of the devil, and, therefore, capable of witcheraft.

STUMBLE OVER a rock hillside and see where the cut of a railroad has praying to the Lord that a whirlwind would swoop down and lift from the crossties the steel rails on which was to pass a steam-propelled piece of machinery that would do the work of thousands and thousands of men. OUT IN THE Dakotas and down in Nebraska you could run into a patch of prairie dogs and there find sitting in their midst an old codger who said fifteen years ago that the reapers would ruin their country and put out of work all of the laborers who laid low the grain with the scythe. IT ISN'T strange that this old man, suspicious and prejudiced against all things of progress, should jump in front of a Piggly Wiggly store and there mop the sweat off his hairless head, waggle his tongue in his toothless mouth, and belch out incoherent moanings for that which is to become obsolete, and in its stead rise Piggly Wiggly, the Champion of Progress.

SPENCER NOT WANTED TO SPEAK IN THIRD

Republicans, Fighting League in Congressional Contest, Fear He Would Spoil Their Campaign.

a Staff Correspondent of the Post-Dispatch.

EXCELSIOR SPRINGS, Mo. Jan. 26 .- E. L. (Liv) Morse and other Republicans managing the campaign of John E. Probst of Plattsburg for the nomination for Congressman to succeed J. W. Alexander, whose seat is to be filled at a special election Feb. 14, are trying to write a letter to Senator Spencer which will stop the Senator from appearing in the Third Congressional District to speak and yet not offend him. So far they have

not succeeded.

The Republicans are in an embarrassing situation on account of a telegram received from Spencer, asking for speaking dates in the district and as many dates as he could get.

It is the announced purpose t

make the campaign on a straight-out anti-league of nations issue, and Spencer does not fit in at all with that scheme, not any more than he would if the issue were the reverse. The party leaders had not counted the straightful and the straightful upon Spencer as a speaker, but Spencer learned that his opponents for the nomination for Senator, James L. Minnis and Lieutenant-Colonel Dwight F. Davis, were go-

colonel Dwight F. Davis, were going into the district, and Spencer lost no time in sending his telegram.

"Can Make Wonderful Fight."

The leaders, some of whom have charged Spencer with having pursued an off-again-on-again attitude toward the league, with a continual toward the league, with a continual uncertainty as to where he stood, were surrpised to read in his telegram: "We can make a wonderful fight on the league of nations."

Joseph E. Black of Richmond, one of the most active Republicans in the district, and an anti-Spencer man, is opposed to Spencer entering the district. "Suppose somebody should ask him where he stood on the league of nations," Black said, when conferring with other Republicans on the situation. "Of course, he would answer, but suppose somebody else should ask him 10 minutes later the same question. He would answer that, but nobody on earth would be able to reconcile the answers, or to understand from either where he stood."

Spencer Is Determined.
The anti-League of Nations Republicans, who are in full charge of the campaign, don't want Spencer to speak. Spencer is determined that his opponents shall not take advan-tage of him in making campaigns through the district, speaking for Frost and making votes for themselves, and he is insistent upon being permitted the same right. Of course, he can't be stopped. He can speak wherever he can get-listeners.

The Democratic campaign for Capt. J. L. Milligan of Richmond will open here tonight, Breckenridge Long, Third Assistant Secretary of State, being the principal speaker.

Our Great Sale of Used Players and Pianos

-offers savings opportunities in the January Clearance that you cannot afford to overlook if you are thrifty

I You can buy a high-grade Player-Piano that is practically new for as low as \$345. Used Upright Pianos that are guaranteed to be in perfect playing condition are priced as low as \$100.

Then there are several Players that have never been used except for demonstration purposes in the store. These have been specially priced because of a slight shopworn appearance. Several Grand Pianos have been specially priced for the same reason.

With the dire shortage of musical instruments that faces every one today because of under-production this sale becomes even more interesting. The savings represent more than they actually appear on the face of the offer, for every instrument reordered from the factory today, or in the months to come will cost much more than those bought in the past.

The Vandervoort Special Payment Plan applies to all instruments purchased in this sale. You will be allowed as long as two and one-half years in which to complete your payments.

The following is a partial list of the instruments now on the floor.

imagine a l'eacher With a Surplus!

Improbable? Yes, but let us imagine such a case. Then, let us suppose the teacher says:

"Mr. Merchant, Mr. Landlord, and all others to whom I owe money, I cannot pay you all the money to which you are entitled because it is my business policy to maintain a surplus against a possible emergency.

"Wait till next September. Possibly by that fime, if all goes well, I may be able to pay you a fairer share of what is due you.'

The teacher would find this kind of argument futile.

In November, 1919, the public school teachers of St. Louis presented to the Board of Education the two following requests, neither of which has been granted

- (1) An increase of 331/3% throughout the teachers' salary schedule, to become effective not later than the school year beginning in September, 1920.
- (2) Such immediate increase as the Board is able to grant from funds

The Board of Education has an unapportioned balance of \$700,000.00 in the General Fund, from which it can legally increase the teachers' salaries immediIs the Beard of Education justified in maintaining a surplus of \$700,000.00 by withholding from the teachers the increase in salary to which the Board admits the teachers are entitled and which taxpayers have approved by their yote?

AMBASSADORS DISCUSS HOLLAND'S REFUSAL

Reply of Body Created to Carry Out Supreme Council's Work Expected Next Week.

to carry on the unfinished routine

The discussion in the council did not disclose the trend of opinion among the members further than that it appeared to be the view that

lace, the American Ambassador, was present with the other members of the body. After disposing for the day of the extradition question, the council decided to give the repre-sentatives of the Jugo-Slavs four days' additional time to reply regarding the proposed compromise or the Adriatic question, including the disposition of Fiume. This carries the question along until Wednesday.
The council received a letter from

tanislas Patek, Polish Minister of foreign Affairs, calling attention to the possibility of a strong aggressive movement by the Bolsheviki against Polish territory and recommending that a plan be adopted for defensive measures. The letter asked that the uestion be called to the attention of Marshal Foch. German Note Taken Up.

The council also had before it a note from the German plenipotenti-aries raising certain points regarding the makeup of the boundary com-missions provided for by the treaty of Versailles. The questions were raised by the Germans because of the non-ratification of the treaty by the United States and the consequent lack of American memoers on the commissions as provided for by the peace document. The absence of the Americans also raised a question as to the presidency of the commis-sions to control the plebiscite in the Teschen territory, on the Czecho-Slovak-Polish frontier. It was point-ed out that the French member would act, pending the qualification of the American member through the ratification o fthe pact, should such action be taken by the United

At the close of the morning session the council decided to hold another meeting this afternoon.

FOOD COST AT NEW HIGH MARK IN DECEMBER

Department of Labor Figures Sho Continued Increase in Prices.

The cost of food, up to the first of the year, was going up, instead of lown, as shown by the report is-ued by the Bureau of Labor Statistics of the Department of Labor, at Washington, which states that "the prices of 22 articles of food in December was the highest ever at-tained, being 2.6 per cent higher than in November, 5 per cent higher per cent higher than in December, 1913, the year before the war be-

The increase in St. Louis was even higher than the average for the 50 cities from which figures were taken, prices here being 3 per cent higher in December than in November. In only four cities, Boston, Norfolk, Richmond and Fall River, was there a decrease from the preceding month, and it was less than one-half of one per cent.

Between Nov. 15 and Dec. 15, the following average increases ocurred, the report states: Cabbage, 36 per cent; onions, 17 per cent; granulated sugar, 16 per cent; fresh eggs, 11 per cent; potatoes, 10 per cent; raisins, 5 per cent; flour, 4 per cent; butter and storage eggs, 3 per cent; fresh milk and canned salmon, 2

NEW REGIONAL DIRECTOR OF COMMITTEE OF 48 ARRIVES

Paul Harris Drake, a former newspaper man of Boston, has been ap-pointed regional director of the Committee of Forty-eight, with head-quarters in St. Louis. He arrived here today and will have temporary headquarters at Hotel Statler. Be-fore the end of the week a location in a downtown office building is to be obtained and from here the campaign will be directed over Missouri, Oklahoma, Kansas and Texas. R. A. Shannon will remain as secretary for this district.

A public mass meeting in the in-terest of the Committee of Forty-

FOOD DRAFTS ABROAD

Plan Is Devised to Simplify Transmission of Sustenance to Central Europe.

A method by which persons residing in America can relieve the distres of relatives in Central and Eastern Europe has been instituted by the American Relief Administration of which Herbert Hoover is chair-

ropean countries while food is precious. Drafts for money sent to sufferers will relieve them little, so drafts for food have been devised American relief warehouses have been established in Warsaw, Ham burg, Vienna, Budapest and Prague. These warehouses are being stocked with flour, bacon, beans canned milk, corned beef, lard and cotton-

The American Bankers' Association, through member banks, will offer for sale food drafts in denominations of \$10 and \$50.

Drafts May Be Malled.

A purchaser in America may mail a draft to relatives, in any of the named cities or contiguous territory. Upon presentation at the ware-houses the draft will be honored with food to the amount of its face value at prices reckoned, not on market prices in the countries named, but on original cost of the food purchased in America plus the cost of shipping and assembling in the warehouses. Should any profits accrue, they will be turned over to the European Childrens' fund. The only manner in which persons in America may now get food to rela-tives in Europe is by individual shipments, an uneconomical method.

Food drafts designed for use by gentiles differ from those designed or use by Jews. Thus a \$10 food draft will purchase either of two stocks of food: (a) 24 1-2 pounds of flour, 10 pounds of beans, 8 pounds f bacon, 8 cans of milk; (b) 24 1-2 oounds of flour, 10 pounds of beans, 1-2 pounds of cottonseed oil and 13 cans of milk.

A \$50 food draft will purchase either: (a) 140 pounds of flour, 50 pounds of beans, 16 pounds of bacon, 15 pounds of lard, 12 pounds of corned beef and 48 cans of milk; (b) 140 pounds of flour, 50 pounds of beans, 45 pounds of cottonseed oil and 48 cans of milk.

Hoover Supports Plan. Supporting the wisdom and need of this plan, Hoever says: "Through-out the whole of Eastern and Central Europe, the food supply of the people falls into two classes: First, the ration issued by the Government; second, illicit circulation of food vailable to those who have a sufficient amount of mohey. The Government ration is necessarily meager and nowhere sufficient properly to maintain life and must be suppleented. Under these circumstances the scramble for such supplementary margin has placed the price of the llicit food supplies beyond the reach the great bulk of the population. To illustrate: A single ham outside e ration system sells for as high as 150. A hungry man wants food, not noney and under this plan we can upply his want."

This plan has the indorsement and edge of co-operation of the Govrnments of Poland, Austria. Hungry, Ezecho-Slovakia and Germany. hey have promised to hold the connts of the American warehouses bove requisition and will assist in transportation and entry of all

Any persons without relatives in he countries named, but desiring to the sufferers without naming an'individual beneficary, can purchase drafts in the usual manner and they will be forwarded to the agents of the Relief Administration abroad.

CONSTANT INCREASE IN SUICIDES SINCE SIGNING OF ARMISTICE

the Associated Press.

NEW YORK, Jan. 26 .- Since the signing of the armistice there has been a constantly increasing number of suicides everywhere, according to a report issued today by the Save-a-Life League. In Germany Russia, Syria and other foreign countries where the number has been very large, the cause is attributed to despair because of miserable living

onditions brought about by the war. The report tabulates 5121 cases of nicide in the United States during 1919 Of the professions lawyers led he list with 43, of whom 12 were Judges; 36 were physicians, 28 teachers and 11 clergymen. The list included 204 presidents of large business concerns and 50 prominent club members, millionaires and wealthy society women. Unhappy marital relations were responsible for 350 tragedies.

Men outnmbered women, 2987 to 1657, but of the child suicides 252 were girls and 225 boys. Newspaper editors appeared to be immune.

OF SILESIA BEGINS

Occupation by 18,000 British, French and Italian Troops to Start Jan. 30.

By the Associated Press. BERLIN, Jan. 26 .- German troops began evacuation or upper Silesia Saturday under terms of the peace treaty which requires that the movement begin within 15 days after rat-

The first allied troops are expected Jan. 30. Evacuation will be accom-plished by zones, each of which will remain under a provisional military administration under the inter-allied

The treaty provides for the occupation of upper Silesia by 18,000 allied troops composed of English, French and Italian contingents.

A mass meeting in protest against who are wanted for trial was held yesterday by patriotic societies in the Circus Busch. A large crowd attended. Margaret Behm, Conservative member of the Assembly, one of the speakers, was interrupted by cries of 'Revenge! revenge!"

"Not yet, not yet!" she replied. 'Be patient!'

A National Liberal member of the Assembly declared that although the peace treaty obligated Germany to surrender the men, the promise was null and void before the "Supreme Judge." He demanded that the Government use the utmost force in resisting the attempt to extradite the men. The chairman was applaude? when he announced that the United States was holding aloof from the extradition issue. German preparations for the evac

uation of Danzig, which is to become a free city under the terms of the treaty of Versailles, included a final parade of the German troops, Saturday. A Danzin message says the parade was held amidst an enthusiastic popular demonstration, with German colors on the flagstaffs of various buildings at half-mast.

The occupation of the city by the allies, set for Feb. 8, is likely to be delayed several days, according to the Danzig advices.

PLATINUM SWINDLERS ARRESTED

By the Associated Press. GENEVA, Jan. 26.—A band of international swindlers was arrested at Lindau while selling small blocks of alleged platinum at 250,000 marks a block. They had obtained many victims in the principal towns of German Austria, while correspondence seized at their hotel showed that London and New York dealers had offered to buy some of the

"precious" metal. The blocks were of lead cleverly covered with a thin layer of plati-num. A large sum of money was seized in the swindlers' hotel at Lindau just as they were preparing to leave for Berne and Paris wit

New IDEAL-Arcola Radiator-Boiler

The IDEAL-Arcola is one of the world's newest and greatest of inventions. It is unique-being both a Boiler and a Radiator. Takes the place of a parlor stove, and distributes heat to the rooms, and through its water-jacket conveys the excess heat to connecting AMERICAN Radiators stationed in adjoining rooms. There is no coal-waste! Unlike stoves and hot-air furnaces, the IDEAL-Arcola with its water-backed surfaces does not burn out or rust out-it will easily outwear the building in

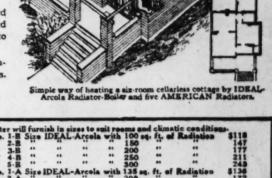

Heats the most and costs least!

The Arcola and the AMERICAN Radiators are made in sections or units and can be increased or decreased in size (Note that 65% of all buildings are altered in size.) Legs cannot be kicked out, as with stoves-hence no fire-risk to building. Does not overheat-hence no danger to children. The soft, radiant, healthful, cleanly warmth changes a house into a home. The Arcola may be painted or enameled in any shade or color to match woodwork or decorations. It is not obtrusive like a stove but may be painted to harmonize with any furnishings

Shipped complete ready to operate

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs-can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and one or two radiators (at prices lower than herein given) and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms. Investigate at once this greatest value in building equipment.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL_Arcola Boiler in position will be mailed (free). Write today

ST. LOUIS HUNTER FINED \$50 EDDIE LEONARD SHINES IN "ROLY-BOLY EYES"

> Sweet-Voiced Singer Has Surrounded Himself With Fine Company and Chorus.

An odd, but pleasing, mixture of minstrelsy, musical comedy and burlesque is "Roly-Boly Eyes," which opened at the American Theater last night. This is a John Cort production frankly written for the exploitation of Eddie Leonard, a veteran of minstrelsy whose voice has a haunting sweetness and who dances with the nimbleness of a youth that is no more. The rounded tones of Eddie's voice and the inimitable grace of his old-school minstrel dancing furnish no small part of the entertainment, but it is by no means a "one-man show," as Leonard has surrounded himself with many other talented performers, including the girls of a very good-looking chorus. The plot is as simple as a minstrel

joke, but it serves as a peg for much action. The son of Judge Robert Warren has been wrongly accused of a crime and has run away from home and joined a minstre troupe. Leonard, of course, is the son. After a lapse of several years the minstrel troupe "hits" the old home town and is engaged for a special performance at the Judge's home. The hero's black-face makeup insures him against recognition. Unknown to all he basks in the old home atmosphere and in the smile of the girl he loves and hatches a plot to catch the villain. Incident. including "Roly-Boly Eyes," with

There is much genuine comedy in the situation where the minstrel troupe is "put up for the night" on the Judge's sleeping porch, or rather one half of it, while debutantes in vited to the minstrel show sleep o the other half. Here is a chance for broad burlesque on the one hand and seductive negligee effects on the

Miss Queenie Smith in the ingenue role of Ida Loring enhances her reputation, already established on the vaudeville stage, as a singer and dancer of unusual ability. Kate Pullman, a dancer of an entirely different type, athletic and apparently tireless, also is a prime attraction, especially in her duet numbers with the nimble Earl Gates.

Eddie Mazier and George Pierce, old minstrel men both, supply much of the comedy dancing and the burlesque element is introduced with hilarious effect by May Boley, as Kittie Rice, the "lady manager" of the minstrels. Her imitation of a coloratura soprano "stops the show. An added diversion in one of the 'rehearsal" scenes is an unusual Oriental posture dance by Margaret Edwards. There are three acts in "Roly-Boly Eyes" and the fun

Program Has Miss Minna Niemann as Piano

The Symphony Orchestra's popular concert at the Odeon yesterday afternoon was again made up largely of "request" numbers, one of the features being the "Meditation" from Thais, with violin obligate by Michel Gusikoff, the orchestra's concert

master. The soloist of the day was Miss Minna Niemann, who played the first movement of Arensky's F-minor concerto with orchestra accompaniment. everal Chopin numbers without accompaniment, and for an encore Pery Grainger's "Juba Dance."

The program for the orchestra in-cluded the "Martha" overture, Chabrier's Spanish Rhapsody, the "Girls of Baden" waltz and the first number of Schubert's "Unfinished Sym-

GOV. COOLIDGE SAYS HE IS NOT A CANDIDATE FOR PRESIDENT

Says Curse of Present Is Almost Universal Grasping for Power in High Places.

BOSTON, Jan. 26 .- Gov. Coolidge eclared yesterday that he was not and never had been a candidate for President and that he would not setts delegation to the Republican national convention. He did not say that he would oppose the presentation of his name at Chicago.

In a statement the Governor said in part: 'The times require of men charged with public responsibility a singleness of purpose. The curse of the present is the almost universal grasping for power in high places and in low, to the exclusion of the discharge of obligations. It is alrays well for men to walk humbly.

"I have never said I would become a candidate for President. I have never accepted, unless by silence, efforts made by statesmen of more than national reputation to present my name to the convention. I have made it plain I could not seek this office. My paramount obligation is not to expose the great office of Governor, but to guard and protect it.

I have not been,
I am not, a candidate for Pa

IN A DOUBLE ROLE &

Pauline Frederick Also Seeh Here in Film Version of "The Paliser Case."

Norma Talmadge in "A Daughter of Two Worlds," the second First National production in which she has starred here, is the leading attraction at the New Grand Central. While this is not the best photoplay in which she has ever appeared, it went over very nicely on the opening day. It is a combination "crook" and "society" drama, in which Miss Talmadge is called upon to play the dual role of a girl of the underworld who has been accused of forgery and a girl of supposed wealth and social standing who is a pupil in a fashion-

able boarding school. She goes to the school and estab-lishes a new identity to escape the consequences of the forgery. The brother of her school chum falls in love with her and just when the past seems to be dead a youth whom she has known in the underworld is falsely accused of murder. This makes it necessary for her to reveal her true identity to her sweetheart, but love stands the supreme test and all turns out well.

'The Paliser Case" Interesting. A famous novel by Edgar Saltus is the basis for "The Paliser Case," with Pauline Frederick in the lead-ing role, which opened yesterday at the Kings, Shenandoah, Juniata, New Grand-Florissant and Royal Theaters and opens today at the Lindell. This is a "fringe of society" murder mystery story, which turns on the vital question: "Who killed Monty Paliser?" All that is known to start with is that somebody did it with a knife. After the fashion of detective stories and plays, sus-picion falls first on one and then on another alighting finally of course. another, alighting finally, of course, on the persecuted heroine, who has not kept her reputation sufficiently spotless to furnish a character defense on short notice. It is highclass melodrama and holds the interest throughout,

Alice Joyce in "Slaves of Pride" is the topliner at the Liberty. This is the story of a middle-class girl who marries a born-to-the-purple aristo-crat, who after he has won her is too proud to love. There seems to be some question whether his love is worth winning, but the girl does it after overcoming many social 6bstacles.

An added feature at the Liberty beginning tonight, will be Tom Mix in "The Cyclone," one of the swift-moving dramas of the saddle which have won fame for this star. He has he role of a member of the Canadian mounted police

Wallace Reid Amusing. Wallace Reid in "Double Speed" is the feature attraction on the West End Lyric bill. In this drama the action starts in the East, but quickly shifts to the West when the hero s called there on business. He deides to make the business trip an utomobile jaunt, but there are unforeseen complications which make it necessary for him to conceal his identity. He chooses a name which identity. He chooses a name which he supposes to be fictitious, not knowing that the misdeeds of the real bearer of this name have made it a most inconvenient one to travel

under. The resultant complications are many and amusing. At the Pershing the principal of fering is David Wark Griffith's "The Greatest Question." On the bill also is Tom Wise in "Romeo's Dad."

OUTSTANDING CAPITALIZATION

Ten Year 7% Convertible Debenture Bonds. \$25,000,000 7% Cumulative Convertible Preferred Stockpar value \$100.

Reference is made to a letter of B. Braga Rionda, Esq., Vice-President of the Corporation, the salient points of which are summarized below:

(1) The Corporation is the largest single producer of raw sugar in the world, its output exceeding one-seventh of the entire production of the Island of Cuba.

(2) The Corporation owns and operates sixteen fully equipped sugar mills with a present working capacity of about 5,000,000 bags (250 lbs.) of raw sugar. The output for 1918-1919 was 4,319,189 bags and the estimated output for 1919-1920 is 4,700,000 bags.

(3) The Corporation has no bonded indebtedness other than these Debenture Bonds. It covenants not to create any mortgage upon its present real property or plants so long as any of the Debenture Bonds are outstanding.

(4) The purpose of the issue is to reimburse the treasury or the Corporation for capital expenditures heretofore made and to provide working capital.

(5) The net tangible assets as of September 30, 1919 (after giving effect to the proceeds of sale of the Debenture Bonds), amounted to \$99,587,302, or nearly four times the amount of this bond issue. The properties could at present be duplicated only for a sum largely

(6) Operating profits, after taxes but before depreciation, have since organization, December 31, 1915, averaged slightly under \$10.000,000 per annum, equal to 5.71 times the annual interest on the Debenture

(7) The Corporation is obtaining for the current crop much higher prices than existed during the two years of Government control (these prices f. o. b. Cuban ports were 4 6-10 cents for 1917-1918 and 5½ cents for 1918-1919), and it is therefore confidently expected the earnings for the current year will be greatly in excess of those of any previous year.

(8) The Debenture Bonds will be on and after January 1, 1922 (or sooner if at any time permitted by law) be convertible, on the terms of and in accordance with the Indenture, into Common Stock at \$60

Legal matters incident to the issuance of the Debenture Bonds have been under the supervision of Messrs. Sullivan & Cromwell for the Corporation and Messrs. Cravath & Henderson for ourselves. Application will be made to list these bonds on the New York Stock Exchange.

We recommend these Convertible Debenture Bonds for investment

White County, Arkansas

North Arkansas Highway Improvement District Number One

51/2 % Bonds

Dated December 1, 1919.

Due Serially August 1, 1920-1939.

Principal and semi-annual interest (February 1st and August 1st), payable at the First National Bank in St. Louis. Coupon bonds in denomination of \$1000 each.

Price 100 and Accrued Interest, Yielding 5.50%

These bonds are the obligations of a District comprising 155,500 acres of agricultural land, ten cities and towns and eighty miles of railroad. The population of the district is estimated at 20,000. The land values range from \$100 to \$20 an acre, with an average value of about \$40. The District is served by the main line of the Missouri Pacific from St. Louis to Little Rock; the Missouri & North Arkansas; the Rock Island; and the Doniphan, Kensett & Searcy railroads.

Taxes to pay the principal and interest of these bonds have been irrevocably levied against all real property in the District and exceed the requirements by a substantial margin. The average bonded debt against the land is but \$3.29 per acre; and the average annual tax for the payment of both principal and interest of these bonds is but 28c per acre. The tax collector is prohibited, under penalty, from accepting State and County taxes unless the taxes to pay these bonds are included.

Legality approved by Messrs. Rose, Hemingway, Cantrell & Loughborough, Attorneys, of Little Rock, Arkansas.

CRITTENDEN COUNTY is located in Northeastern Arkansas. United States Census reports for 1910 accorded the County an increase of 120.5% in value of farm property over the preceding decade. Improvement Districts located in this County have an unbroken record for payment of their obligations at maturity.

ROAD IMPROVEMENT DISTRICT NUMBER NINE contains 82,800 acres of fertile alluvial land and is located directly opposite Memphis, Tennessee. Values average \$150 per acre for cleared lands and \$50 per acre for timber lands. Sixty per cent of the district is in cultivation. Taxes exceeding the requirements for principal and interest by 10% have been levied against the lands in proportion to the benefits assessed thereon.

THE PROCEEDS of these bonds will be used for road construction. The improvements were de signed by eminent engineers and have the approval of the Arkansas State Highway Department.

Legality approved by Messrs. Rose, Hemingway, Cantrell & Loughborough, Attorneys, Little Rock, Ark The bonds are offered when as and if received by us subject to prior sale or change in price.

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

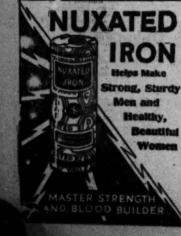

If you have a "dark brown mouth"—
bad breath—a dull, tired feeling—sick
headache—torpid liver—constipation,
you'll find quick, sure and pleasant resuits from one or two of Dr. Edwards'
Olive Tablets at bedtime.

Thousands take them every night just
to keep right. Try them. 10c and 25c.

Don't worry about eczema or other akin troubles. You can have a clear, healthy skin by using Zemo. Obtained at any drug store for 35c, or extra large bottle for \$1.00.

FIGHT CONSTIPATION: The Enemy to YOUR HEALTH

Constipation, if neglected, gives an opening to the germs of nearly every deadly disease.

When you feel dull, sluggish, and always tired, get a 25-cent package of Schoenfeld Kidney and Liver Teafrom your druggist. Make this purherb remedy like ordinary tea, and take a cup daily. In a short time

Remember Tonsiline TONSILINE is the National Sore TONSILINE is the National Sore Throat Remedy—it is sold in every State in the Union. Most people buy a bottle occasionally because most people occasionally have Sore Throat. They buy it for the prompt, welcome relief it brings to sufferers from this malady. You can forget Sore Throat if you will only remember TONSILINE and get the bottle NOW that waits for you at your druggists.

Look for the long necked fellow on the bottle when you get it.

Your editorial in Sunday's issue on "Herbert Hoover" was a masterpiece, and the writer, with great enthusiasm, wants to tell you that it was one of the

Evasion of Coal Ruling.

The ton is the unit of measure generally used in this country for the sale of coal, and the Government has made a ruling that standard coal should not be retailed at more than \$5.45 per ton. The writer called at a South Side coal company this morning and asked the price of standard coal and was told it was \$5.45 per ton. Told them to deliver a ton-and was informed that it cost \$5.70 per ton in one-ton orders. Would have to order two tons or more to get it at.

Punish Census Evaders. It was with the utmest disgust I read of the reception the census enumera-tor received in some places in the West End. I think I am one of many who read this article with the same uprising made" by our supposedly "smart set," who, while they are perfectly willing to live off of St. Louis money, refuse to be classed as its citizens. St. Louis would be better off without this class of people.

I, for one, say let the city treat them as they have treated our city's represtatives. Papers have stated these estions must be answered under penalty of the law. How do they "get "DISGUSTED."

To the Editor of the Post-Dispatch,

Wish you would make a complete, simultaneous and systematic inquiry of all the places where United Railway car tickets or tokens are supposed to be constantly on sale for the public's convenience. It seems almost impossible to buy these when needed to save the paltry few cents allowed for purchases of fares in \$3.50 quantity. It is evidently a systematic attempt to collect the higher force in \$3.50 quantity. It is evidently a systematic attempt to collect the higher fare provided for, when paid on the street car to the conductor. I think investigation will disclose this new system of gouging the public is a sort of petty larceny scheme of profiteering. Some places will only sell 50c or \$1 of the tokens, to get their "retailer's profit"—not possible in \$3.50 purchases.

THE NEW WORLD POET.

THIS poet had dreams of a different sort. From the long-haired genius of long ago; And determined to be a modern sport, And invent a unique kind of a show: He knew that poets were out of date. And longed intensely to change his fate; He could solve the problem in no other way

But his brain was fagged, he needed rest, His nerves were a-jangle at their best; He could not possibly settle his mind To running in grooves of a practical kind. So, he bought a farm and left the town; Determined in quiet to settle down And build up a strength to cope with the world, E're his art in the struggle of life he hurled.

He awoke with the birds in the graying morn, Hoed the soil and planted his corn; He chased the gray squirrel to its tree And robbed the home of the honey bee And every day there was something new-Life was a joy—life was true; But the balmy days of spring slipped by And the hot sun climbed the burning sky.

The poet lay dreaming beneath the trees. Fanned by the summer's gentle breeze, The work was forgotten, the crops "laid by." And obsessed by the dreamer's idle spell, His vagabond brain fashioned stories to tell: All profits and pleasures of farm life had palled So a picture show in the barn was installed.

The outcome of this was a gracious surprise For who on the globe do you think would sur-

HOOVER FOR PRESIDENT.

T HERE is one man, not an active candidate, who in comparison with all the other candidates, qualifies so readily that his election would be a foregone conclusion under reasonable conditions. That man is Herbert Hover. Test any other candidate by the standard of personal fitness, experience and training for the issues that will confront the next President and see if you can make a case for him as against Mr. Hoever.
Is Mr. Hoover less loyal to American institutions
than General Wood or Mr. Palmer? There is than General Wood or Mr. Palmer? nothing to debate. For the rest, will any supporter of Leonard Wood or Mitchell Palmer pre-tend that either of their candidates knows a fra-ment of what Herbert Hoover knows about the necessities of the modern world? Would either of them, or any of the others, risk comparison with Hoover, either on knowledge of social-conditions. knowledge of American industry, knowledge of world trade, knowledge of European politi knowledge of diplomacy? Is there one of the who can show a record as administrator who will stand against the record of the organizer of the Belgian Relief, Food Administrator of the Allies, and the Director-General of European lief? What have any of them said, done, thou or proposed that fits in anything like the same de-gree the immediate needs of the country?

After all, there is no other test that can be made. Mr. Hoover shares his limitations with other men. He is sometimes hard to work wi occasionally dogmatic, impulsively prejudiced, a likely to take too short a view. But the spring of his character are generous, and his power of visualizing sypathetically the plight of ordinary people over wide areas and under all kinds of "Those birds and their signs would have circumstances amounts to genius. In the second installment of his narrative, printed in last Monday's Post-Dispatch, Admir-Isims told how the "Q," or Mystery, ship Dunraven, engaged in a desperate battle of wits with a German submarine. The U-boat picked up the Dunraven and began firing on her at reat distance. The Dunraven returned the fir . but, to carry out the appearance of being a nerchant ship armed only with small guns, all her shots fell short. Soon a great cloud of smoulfage steam from the Dunraven led the Germans to think the Dunraven was mortally it. A trained "panic" party put off in great haste from the Dunraven, some of the boats begansized and their human loads being pick d up by other boats. But the hidden guns on he Dunraven were still fully manned. Meanw life the U-boat came closer, which was in acord with the Englishman's plans. At an unlucy moment, a strong breeze caught the smoke from he Dunraven and hid the approaching U-oat, which was firing shells rapidly into the Dunraven. One of the shells landing among a nest of men and guns set fire to the ship. This was at a spot near an ammunition magazine. The U-boat was in range, but the Dunrathis was at a spot near an ammunition magazine. The U-boat was in range, but the Dunra-en's crew did not care to risk losing the enem n by firing through the smoke. The target was too uncertain and indistinct. Here the Admir's narrative is resumed.

Income Bought Now Will Gain in Buying Power as Prices Fall

While prices were rising, during the war years, the buying power of fixed dividends, like that of Union Electric's 7 per cent preferred stock, was falling. Common stocks of companies that profited by the war paid the big dividends.

Today, the tide is turning. Prices are at or near the peak. Within this year prices will begin falling, and they will keep on falling, back to or near normal. AS PRICES FALL THE BUYING POWER OF FIXED DIVIDENDS WILL GAIN.

This is NOT a time to put savings into speculative securities. It IS a time—the best time in twenty years-to buy bonds and preferred stocks that pay a FIXED and a DEPENDABLE income.

Union Electric 7 per cent preferred stock is NOT a speculation. It won't pay more than 7 per cent any year. It will pay 7 per cent every year. AND AS PRICES FALL, ITS 7 PER CENT DIVI-DEND WILL GAIN IN BUYING POWER EVERY YEAR.

Union Electric is as solid and permanent as St. Louis. It is growing as rapidly and healthfully as St. Louis. It is a State-appraised, State-regulated public service institution, supplying electric light, heat and power for St. Louis and a large portion of the state adjacent to St. Louis. Its preferred stock dividend is as safe as any in the State. This issue is for sale only to Union Electric customers and members of their families.

TERMS: \$100 a share for cash; \$102 a share on a ten-payment plan, under which buyers draw 5 per cent interest on installment payments, and can withdraw all payments, WITH INTEREST, any time before final installment is paid.

Prisoner Here Says He Stole From Cleveland Concern of Which He Was Cashier

Cleveland, O., who was arrested in seloon at Sixteenth and Market streets last night after he had suggested to two detectives a plan of robbing the saloon, told the police today that in the last 80 days he had spent more than \$12,000, stolen from the Mechanical Rubber Co., of Cleveland.

Maier said that "whisky and women, both easy to get," had taken all of this money. According to his story, he started as an office boy with the company several years ago and was several times promoted. At the outbreak of the war he enlisted and was discharged from service Aug. 6 last. He was immediately re-employed by the company and on Aug. 12 was made cashier. He says that everything went well until about Sept. 25, when he began drinking, and that his downfall dates from that time, when he began stealing from the company's funds, carefully covering his thefts.

Tells of Flight. On Nov. 4 last he was notified of his promotion to assistant manager of the company. It was then, he

says, that he realized his thefts would be discovered, with a new cashler in charge. Maier says he gathered all of the Liberty Bonds in the possession of the company. amounting to about \$10,000. He then purchased an automobile and hired a taxicab driver to drive him from Cleveland to St. Louis.

He says that between Nov. 4. and last Saturday he had disposed of all the bonds for about \$8200, and also had sold his automobile for \$700, and had spent all of this money except \$6.

Proposed Robbery to Detectives.

Maier was arrested when he approached Detectives Coats and Lanigan, in the saloon, with the remark, "Say, pals, I'm broke. Let's stick up this place."

Maier afterward said he was drunk at the time and had no recollection of having made such a remark to the detectives. At the police station today he said his conscience troubled him and he felt he must tell of the thefts in Cleveland.

"Whisky, or what I call squirrel juice, is easy to get in St. Louis," said Maier, "also in Detroit, Chicago and
